### Hygiene tips for Bosch conference products

Ladies and gentlemen,

Due to the current situation with Corona / CoVid-19 virus we get regular question related to the hygiene protocol for the use of the Bosch delegate devices. Find below our advice related to this topic :

- For hygienic cleaning of the Bosch conference devices, including our devices with touchscreen, we recommend to use Alcohol Cleaning Wipes (up to 90% Isopropyl Alcohol).
- For extra hygiene, disposable microphone foam covers can be used for all current Bosch Conference stem microphones. These microphone foams are available from stock and can be ordered as spare part at : [Spares.BTService@de.bosch.com](mailto:Spares.BTService@de.bosch.com)

<b>SAP number</b>	<b>CTN</b>	<b>Description</b>
<i>F.01U.391.115</i>	ESP-F01U313931	SPP Microphone Cap Foam Cover (50pcs)

Yours sincerely  
Bosch Security Systems B.V.
